

Office of the Director  
of Central Intelligence

1 May 1974

TO: Mr. Stoertz

Attached is a note to the DCI (mis-addressed) sent by Gen. Welch. It forwards a study on "Current Soviet Tactical Nuclear Combat Capability Facing Europe and the Far East" and asks the DCI for comments. Would you please arrange for the right people to scan this document and pull together a response, either for the DCI's signature or for mine on his behalf. [ ] should also cast an eye over this piece and make any comments he wants to add. Furthermore, as Ben Evans' buck slip notes, the Director wants us to touch base with the IC Staff to whatever extent we (i.e., you) feel necessary.
